- Double bolt action for extra security.
- Installation bolt included for easy fixing to floor.
- Simple operation - digital key pad.
- Solid construction for extra protection against fire and theft.
- Adjustable shelf height.

## FIRE RATING -

Fire Resistant and Impact tested and certified for 1 hour.

60P, NT Fire 017 – Swedish National Testing & Research Institute (SP)

KSG 4500 & P-SITS – Korean Standards Association (KSA)

*In line with our policy to provide the best in security, we reserve the right to incorporate any improvements or alter any part of the specification without prior notice.*

A small fire can rapidly turn into a raging inferno in a matter of seconds. If your personal documents are to survive such a disaster, then they need to be stored in a fire resistant document safe.

Take a look around your home or office and see the valuable possessions that would be lost if a fire were to start now. Items such as family photos, heirlooms, passports, important documents, jewellery, stamp and coin collections, business and customer records, payroll, stock, tax records, data systems, and the list will continue.

**You owe it to yourself to purchase a safe to preserve your valuable possessions.**
